NA Narration	
NA1-1-1-1-1	NA1-1-1-1-1 Read the following example from observing the operations at a library 1) Borrow process Borrower browses the shelves for books Borrower brings copy of book they want to borrow to librarian.
NA1-1-1-1-2	NA1-1-1-1-2 Borrower goes to librarian to collect copy of reserved book . The librarian will check if this is the expected borrower. The borrower will then take the reserved copy and loan it out to the borrower
NA1-1-1-1-3	NA1-1-1-1-3 The librarian will confirm the following information Borrower's card number Name Unreturned books if any Expected returned date of these books The copy number on each book to be borrowed is then keyed into the machine . The status of each copy indicates it is available,referenced or borrowed. Only the available copy is allowed to be borrowed. A 2 week loan period is allowed per book. A referenced or borrowed copy is not allowed to be borrowed. If the copies to be borrowed are all available, the copy number, book name, borrow date and expected return date is used for confirmation . The maximum number of copies allowed to be borrowed is 5.
